

Consistent Silage Corn, Year After Year

Producers want silage corn with strong agronomics and exceptional energy. And they want it consistently, year after year, across every relative maturity. KingFisher and Red Tail silage corn delivers consistent performance through out the complete lineup, so every producer can maximize digestible energy for his livestock.

Dedicated to livestock nutrition, KingFisher and Red Tail corn is focused on consistently maximizing the harvest of energy per acre and boosting livestock performance.

Specializing in development of hybrids for dairy corn silage:

- Increased Starch Digestibility
- Increased Fiber Digestibility

Most extensive silage corn breeding program available:

- Professional relationship with multiple genetic companies
- The best genetics worldwide, for consistent corn hybrids

Agronomics- a priority in the selection process:

- Yield
- Early Vigor
- Plant Height
- Stalk Quality
- Ear Height
- Leaf Structure
- Disease Tolerance
- Dry Down

A service-focused team with on-farm experience:

- A network of over 250 dealers/forage specialists
- Local experience to guide farmers in corn management and crop planning
- A strong commitment to seed quality, with up to 100% replant

Fiber per Acre
Very Good

- Recommended Population 30-40K
- Appropriate for silage or grazing
- Versatile hybrid that covers all soil types
- Wide harvest window
- Very good disease package

Seedling Vigor	Very Good	Dry Down	N/A
Plant Height	Tall	Test Weight	N/A
Ear Height	Medium	Gray Leaf Spot	
Ear Flex	Very Good	Tolerance	Very Good
Cob Color	Pink	Northern Leaf	
Stalk Strength	Very Good	Blight Tolerance	Very Good
Root Strength	Very Good	Goss's Wilt	
Stay Green	Very Good	Tolerance	Very Good

Byron Seeds is offering several **Energy Edge corn blends** featuring KF 57H50 with other conventional and BMR corn.

Energy Edge blends bring a higher level of fat and protein to your feed which may reduce the amount of expensive inputs in your diets.

Elite BMR Genetics for Your Farm

KingFisher BMR corn brings elite agronomics to your farm:

- Increased stalk diameter and density, leading to improved digestibility, higher sugars, and slower dry down.
- Amazing standability and flexibility; holds yields even in tough environments.
- Superb plant health for excellent drought and disease tolerance.
- Consistent pollination for higher starch content and larger ears.

KF 59B70 is a BM3 SofStarch BMR hybrid that excels in standability, ear size, floury starch and overall plant health. With World Forage Superbowl champion quality and breakthrough agronomics, KingFisher BMR corn is changing the future of BMR corn silage.

Contact your local Byron Seeds Certified Forage Specialist to develop a BMR silage plan today!

KingFisher BMR Corn went head-to-head with the top-notch BMR's in the country at the 2023 World Forage Analysis Superbowl and emerged as Grand Champion winner plus four finalists, dominating the BMR Corn Silage category.

Let's hear from Jordan Zirbel, the Grand Champion BMR corn silage winner at the 2023 World Forage Analysis Superbowl:

Jordan Zirbel of Zirbel Dairy Farms near Green Bay, Wisconsin saw major agronomic improvement when he started using KF 59B70. The KingFisher BMR has larger leaves, bigger ears, and better drought tolerance because of it's deep-rooting qualities. And the yield of KF 59B70 averaged 26 tons per acre in 2022—huge, as compared to only 18 tons per acre, the average of the BMR he used to plant. And because of the quality of KF 59B70, his 1,000 cows continue their excellent production.

KF 59B70

BMR- SILAGE ONLY

109-115 Day RM

Brown mid-rib for improved digestibility and increased milk production, this non-GMO hybrid is daylight sensitive (moving it into northern regions of the corn belt will cause it to exhibit shorter maturity).

FiberGest
(30-hr. NDFD)
Excellent

SofStarch
(ISVD7)
Excellent

Milk
per Ton
Excellent

Digestible
Fiber per Acre
Very Good

- Recommended Population 26-29K
- High grain-to-stover ratio
- Excellent SofStarch for a BMR corn
- Widely adapted to many soil types
- Excellent standability with proper plant populations

Seedling Vigor	Very Good	Dry Down	N/A
Plant Height	Tall	Test Weight	N/A
Ear Height	Medium	Gray Leaf Spot	
Ear Flex	Excellent	Tolerance	Very Good
Cob Color	Red	Northern Leaf	
Stalk Strength	Very Good	Blight Tolerance	Very Good
Root Strength	Very Good	Goss's Wilt	
Stay Green	Excellent	Tolerance	Very Good

KF 66B80

BMR- SILAGE ONLY

115-117 Day RM

Brown mid-rib for improved digestibility and increased milk production, this extra-leafy hybrid is medium-tall with high ear placement. This hybrid features extreme stalk expansion at low populations.

FiberGest
